

Guided HR Compliance

No more playing HR and compliance catch-up

Scrambling to keep up with constantly changing regulations can cost your company time, effort, and money. But how do you know where to begin? What if you miss something important? With Guided HR Compliance, we pair a dedicated Mineral[®] expert backed by our entire team of certified HR consultants, with HR compliance technology solutions to support your specific HR needs and goals.

With Guided HR Compliance, you'll benefit from tailored HR expertise from a Dedicated HR Expert and the tools you need to be confident and proactive with HR and compliance, including Workplace Harassment Prevention training and Smart Employee Handbook Plus.

Our clients, their words.

“Guided HR Compliance is a huge time saver for me and my organization. As a small organization with less than 50 employees, one of the most limited resources I have is time. Mineral has taken the burden of answering many HR and compliance-related questions, as well as pairing us with a Dedicated HR Expert that helped create a compliant employee handbook that meets our unique business scenario.”

– Chris Fagan, CFO & VP of Administration, Sciencenter

“My Dedicated HR Expert has tremendous knowledge of the Mineral Platform, excellent HR experience to contextualize the decisions we make with handbook policies, and gives very pragmatic, helpful advice. I've come to rely on Mineral and have full confidence that I'm making the right decisions when it comes to HR and compliance.”

– Art Murray, Managing Director, Convention Management Resources
